

EVOLVING • BY DESIGN •

Welcome Home!

I'm Monica, Founder & CEO of Evolving By Design- an interior design practice creating supporting spaces inspired by your life journey. If you're recognizing that an emotional disconnect is happening in your space every few years or so, know that you're not alone. I help home owners reimagine and reorganize their home to align with their needs when this change occurs.

I have merged my corporate experience as a designer for one of the largest premier design companies in the world for top executives with over 10 years of creative entrepreneurship experience. Operating a profitable and award-winning business in Los Angeles with a childhood spent in the family construction business gives me the ability to design with an intimate understanding of the built environment.

I travel to experience our world through human connection and it's a big part of what fills my cup of joy; along with gardening, baking, camping, chips & salsa.

My design practice is currently offering guidance through private design session at home or virtually, design + project management for renovations, and I am sought after as a conference speaker on the impact of space.

Conference Topics:

How Space Impacts your Health: the Science behind Design
Recreating Your Executive Presence at Home
The Importance of Space as A Reflection of Who You Are
How the Built Environment Influences Your Mood and Behavior

I look forward to working with you in creating your feel good space,

Monica Viramontes
